

WELCOME TO THE COMMUTE TRIP REDUCTION PROGRAM!

The City of Seattle's CTR Program is a partnership connecting large employers to resources and tools that support the use of travel options and keep businesses and the economy thriving.

As a CTR-affected employer you are part of a network of other large employers who strive to reduce congestion and driving alone. You have access to free program assistance to help achieve CTR goals and program requirements. Most importantly, you are not alone! Over 250 other employers participate in the CTR program.

CTR Affected worksites have 100+ full-time, first shift employees (6am-9am, Monday-Friday).

As an CTR-affected employer you receive:

- Company and network specific mode split data
- Customizable employer transportation program summary template
- Transportation education opportunities
- Company specific RideshareOnline.com network
- Employee zip code analysis
- Commute options promotional opportunities
- Annual Wheel Options campaign
- Bike Month support
- Access to CTR network and industry meet-ups
- Transportation alerts and notifications
- Commute trip reduction consultations
- Eligibility for CTR Champions program
